Full Stack MIS Developer

WORK EXPERIENCE

Sept,2024-present

Full stack developer

Code.af software company, Kabul, (https://www.code.af)

- Designed and optimized relational database schemas (ER diagrams, normalization, indexing) to support scalable and high performance applications.
- Developed and maintained backend APIs (Rest) ensuring secure, efficient and reliable communication between systems.
- Implemented stored procedures, triggers and complex Queries to improve data integrity and performance.
- Maintained documentation for database architecture, API endpoints and system workflow for easier handover.
- Developed modern, interactive user interfaces using **Next.js** and **React Query**, ensuring responsive design and smooth client-side data fetching.
- Utilized **Prisma ORM** for efficient database management and seamless integration between backend and frontend services.

Business or sector Software company

July,2021-May-2024

Full stack developer

Smart City Solutions ICT Software company, Kabul, https://scsaf.com/

- Designed and developed scalable web application using laravel for backend development, focusing on clean architecture and efficient database design.
- Built and optimized relational database schemas with performance-driven queries and indexing strategies.
- Developed modern, interactive user interfaces using Next.js and React Query, ensuring responsive design and smooth client-side data fetching.
- Implemented robust APIs, including Restful API design, authentication and data validation for secure and reliable integration.

Business or sector Replace with type of business or sector

Jan,2020-July,2021

Web Designer

CodingRah software company, Kabul, (https://www.codingrah.vercel.app)

- Collaborated in designing a multi-language e-learning platform to manage online courses, students and departments.

▪ Utilized HTML, CSS, Bootstrap and Javascript for frontend development.
▪ Conducted research on similar systems to implement best practices and ensure platform competitiveness.
▪ Collaborated Github version control, enabling streamlined team collaboration.

Business or sector Software company

EDUCATION AND TRAINING

Nov,2020-May,2022   Bachelor in Computer Science   Bachelor Degree

Kabul University https://ku.edu.af/en

▪ Software Engineering, Algorithms, Database Design, Web Development, and Networking.
▪ Focus on application development, system analysis, and database management
▪ Acquired skills in programming, problem-solving, and project management

Nov,2024-present   Multiple certificate of Completion from various courses   Certificate of Compeletion

Udemy Online Courses https://udemy.com

▪ Obtained multiple certificate of completion from various courses to ensure up to date skills in development.
▪ **JavaScript (ES6+), React, Next.js** – building modern frontend applications
▪ **PHP & Laravel** – backend frameworks, RESTful APIs, authentication, database integration.
▪ **Full-stack development** – combining frontend and backend technologies for end-to-end solutions

PERSONAL SKILLS

Mother tongue(s)   Dari

Other language(s)

UNDERSTANDING		SPEAKING		WRITING
Listening	Reading	Spoken interaction	Spoken production	
Pashto				
B2	C1	A1	A1	C2
Replace with name of language certificate. Enter level if known.				
English				
C1	C1	B1	B1	C1
Replace with name of language certificate. Enter level if known.				

Levels: A1/A2: Basic user - B1/B2: Independent user - C1/C2 Proficient user
Common European Framework of Reference for Languages

Communication skills

▪ Strong ability to **collaborate in cross-functional teams** (designers, backend, frontend, QA) to deliver complete solutions.
▪ Experience in **gathering requirements** and explaining technical concepts to non-technical stakeholders.
▪ Clear and concise **technical documentation writing** (APIs, database structures, project guidelines).

Organisational / managerial skills

▪ **Project management** – e.g.: Experience in planning, coordinating and monitoring small-scale projects with tight deadlines.
